# Emerging Growth Opportunities for EHSS Professionals

American Society of Safety Professionals (ASSP), earlier called American Society of Safety Engineers (ASSE), pleased to announce its next Professional Development Conference (PDC) organized by its Chapters in India, at Hotel Holiday Inn, Delhi International Airport, New Delhi on 14th and 15th February 2019.

This PDC is organized by Health, Safety and Environmental (EHSS) Professionals working purely on a voluntary basis for the professional growth of this fraternity and keep it relevant and updated to the technological, economic and socio-political changes.

## Conference Objectives

- Enable Environmental, Health, Safety and Sustainability (EHSS) Professionals to learn and keep pace with changes in the businesses, technology and policies so that they can maximize their value to their organizations
- Charter a career path for themselves in line with the growth in new sectors and
- Learn from the experience of EHSS professionals that come from multiple countries and companies
- Make their work count by focusing on the end results and Trends

# Who Should Attend ?

Environment, Health, Safety and Sustainability Professionals today can come from multiple backgrounds and the subject knowledge can be applied to multiple fields. Hence, people from following fields may join the sessions and share their experiences and also learn from others.

- Safety Professionals with Industrial Safety Diploma and looking for further and continuous education on the new subjects
- Technical Safety professionals on subjects like Electrical Safety, Arc Flash Safety, Fire Safety, Heat Stress and Combustible Dust safety.
- Occupational Health and Safety Professionals including Certifying surgeons, Ergonomists, Physiotherapists to support not only the industry but also growing number of sports persons in the industry as Sports segment increases
- Industrial Hygiene professionals working in industry or consulting for various sectors like Chemical, Pharmaceutical
- Environmental experts working in the field of Governance, Management Systems and Regulations
- HR Professionals, Project engineers, Operational Engineers, Design Engineers etc .. providing career counselling to EHS professionals within their own organization or as consultants.
